-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 20, on line 2, the term "the shoe string" is indefinite since it lacks the proper antecedent basis. Correction is required.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-4 and 18-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Saart (US 784,891) in view of Grandis (US 4,617,685). Saart discloses a customizable belt having a frame for decoration that includes a belt (B) sized to fit about the torso, a plurality of frame (A) having a side member with an inner face and an outer face, and a plurality of clip (C)

for removably retaining the frame having a first arm (a') for holding the outer face of the side member at a first point against a shoulder portion of the clip sized and shaped to engage the inner face of the side member as shown in figures 2 and 3. Further, a connector (D) connects the clip to belt having two apertures (h) as shown in figure 3. Also, the frame has a substantially vertical wall being connect to a substantially horizontal wall as shown in figure 5. However, Saart does not show the outer face of the frame having a display aperture therethrough.

Grandis discloses a belt worn about the torso having a plurality of frames (12) having a display aperture therethrough as shown in figures 3 and 4.

It would have been obvious to one skilled in the art at the time the invention was made to form the frame of Saart with a display aperture therethrough as taught by Grandis as an alternative but equivalent means of displaying items carried on the belt as a matter of design choice or depending on the particular end use thereof.

***Allowable Subject Matter***

5. Claims 5-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 12-17 are allowable because the prior art does not teach or suggest the recitation therein including a clip for removable retaining a canning screw band having first and second arm with first and second shoulders spaced at a distance from a base of each of the first and second arms, respectively that removably engages a side wall of the canning screw band, in combination a bridge portion connects the first and second shoulders together that engages inner surfaces of the canning screw band.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tejash Patel whose telephone number is (571) 272-4993. The fax phone number for this group is (571) 273-8300.
